educhampsTM
"A Unique Preschool"

Educhamps. A unique child centric Preschool established by Edurays India, a premier educational group initiated by educationalist, Mrs. Uma Naresh Reganti.

In **educhamps** we understand the importance of basic education in this modern competitive world; learning is made simple, easy and fascinating through variety of games and creative activities under the supervision of experienced, trained and dedicated teachers.

Sessions are conducted in a colourful environment with play items, theme class rooms, Montessori aids and activities like block building, painting, drawing, swing, slide, puzzles, educational games, sand pit, water pool, arts, crafts, clay modeling, climbing, jumping, running, dancing & singing in both indoor and outdoor, which helps them to develop their physical, intellectual, creative, congenial and social skills.

In **educhamps** we believe that every child is unique and special for us, we encourage children to express their ideas and listen to them. Emphasis is given to Self development by teaching them to inculcate the habits of being more independent, confident, efficient and responsible by learning to take care of their day to day routine like eating, cleanliness, neatness, discipline, punctuality, helping at home along with confidence building, resolving difficulties, learning through trial and error methods.

Children improve their vocabulary through songs, rhymes, poems, stories and dramas. It helps them to develop and enhance language and communication skills. More emphasis is given on language development through the above activities.

India is a land of different cultures and religions. Awareness is created about our country, its heritage, culture through many activities to uplift and uphold our culture and heritage and develop a sense of patriotism and love towards our nation.

Learning is made fun and playful in **educhamps** where every child is moulded individually with personal care and attention with an aim of providing quality, realistic and result oriented modern pre school education.

educhamps *five principles of teaching*
